Learning Activity 3 - Storytelling

1. As a class, discuss some of the stories the students got from their interview subjects. Compare and contrast the stories they found to the stories in the exhibition.
2. Have the students write out the story in words.
3. Then have the students break down the text into pages. They should decide which words will go on what pages.
4. Next ask the class to draw a few pictures to accompany a few of the pages.
5. Once the stories have been written and illustrated the students should read their stories to each other.
